

SingHealth DukeNUS
ACADEMIC MEDICAL CENTRE

SingHealth
INVESTIGATIONAL
MEDICINE UNIT

Founded in 2009 as a dedicated clinical trial unit in the largest hospital cluster in Singapore, focusing on early phase and supporting late phase investigator-initiated & industry sponsored trials

Vision

Defining Tomorrow's Medicine through the Conduct of Early Phase Clinical Research

Mission

- Care to Heal
 - Translate innovations into improved patient care
- Educate to Empower
 - Educate and train the next generation of researchers in early phase clinical trial research ethics and methodology
- Innovate to Advance
 - Developing thought leadership through research innovations

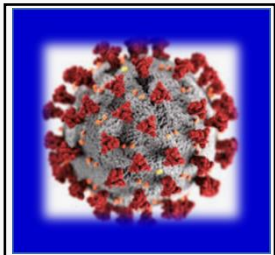

Our Value Proposition

Our Achievements

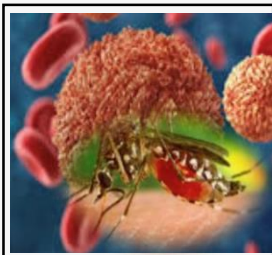

NOTABLE RESEARCH

COVID-19 VACCINE
Phase I&II Safety
& Efficacy Study
on Arcturus Lunar-
Cov19

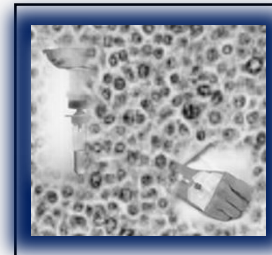

COVID-19 THERAPEUTIC
Phase I Safety &
Efficacy Study on
Home-grown Tychan
Novel Monoclonal
Antibody

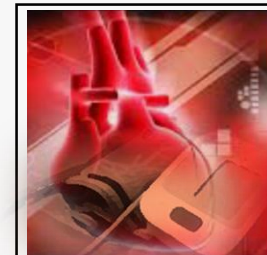

ZIKA TREATMENT
First-in-Human
Safety Study for
First-in-Class Zika
Virus Antibody

DENGUE TREATMENT
Partnership with
ViREMiCS on
Dengue &
Chikungunya
Treatment

CANCER & BIOMARKERS
Niche in First-in-
Man, Early Phase
Oncology Studies
on Immunotherapy
and Biomarkers

CARDIOLOGY
Early phase and
BABE Hypertension
Study
